The Notting Hill Arts Club is a historical centre for up and coming musicians, song writers and entrepreneurs. From George Ezra's first London show to the forming of the Libertines. For the past twenty-one years, the club has celebrated contemporary British art and culture. Developing artists have met, played and discussed how they would change the future and have then gone on to make history. The supportive and creative atmosphere has promoted a culture where ideas and music have the chance to grow and develop. Given its history, the club naturally paves the way for an exciting future for the Notting Hill Academy of Music and its students. Students are taught in a real life and fully operational venue.

"NHAM has literally felt like a fever dream. In such a short amount of time I discovered a whole new me. The me that has always been there but never had the environment. The support from people at NHAM, students and lecturers, was everything I needed to bring out the artist within me. Tom (Beatmaking and Production) is a literal wizard. We need more people who are passionate about what they do. To have industry knowledge and know where I was to be within the music industry is something very relieving and motivating. I can't wait to continue my journey! Big love to you NHAM!"

ISAAC

Beatmaking & Production

"Choosing to go to NHAM rather than carrying on with the music college I was in, was one the best decisions I've made through my journey in music as not only were there actual connections, there were more like minded individuals, and there were always opportunities to branch out and network with people (that were not only in the course) which taught me how to become more professional with how I come across and how to network accordingly. Everybody is so supportive, understanding and the VIBES were always giving. Being on the course also made me make sure NO ONE could "BLOCK MY VISION"

NICOL

Commercial Songwriting

"Studying at NHAM has been an amazing experience, and I'm really glad I took the opportunity. When applying I was really excited about the prospect of attending lectures at the Sony building and gaining work experience at a record label and both of these things really delivered for me. I was also able to attend networking events such as Ditto X at the O2 Indigo, along with live shows such as the Relentless showcase and the end of year cypher, designed and planned by other NHAM students, at the Notting Hill Arts Club. Along with that, I now have a portfolio of work and a set of references I can use to better my chances of being hired in the industry, and I'm really looking forward to making the next step in my career. Finally, big thanks to my lecturers and classmates, Relentless, Partisan and everyone else at NHAM - it's been great fun and I've learned so much."

TRAVIS

Digital Marketing

"Attending NHAM was one of the most transformative experiences of my life. It equipped me with the knowledge and confidence to drive my career as an artist forward and revealed new pathways that resonate deeply with my passions. I not only learnt how to monetize my art but also how to channel my creativity into a sustainable career. The networking opportunities and hands-on experiences NHAM offers are truly unparalleled, and I would wholeheartedly recommend it to anyone serious about making their mark in the music industry."

MONIQUE
